## Graduate / Modular Course in

# **Exploration Geophysics**

Register for this 10-day intensive course in geophysical methods as applied to mineral exploration, offered by Laurentian University's Harquail School of Earth Sciences and Mineral Exploration Research Centre

This classroom-based course features morning and early-afternoon lectures, with late-afternoon laboratory exercises. Topics include the physical properties of rocks and how these can be inferred from geophysical data. The role that geophysics plays in mineral exploration programs will also be discussed.

Each day an academic or industry expert will present one of the key methods used in mineral exploration.

Methods include: gravity, magnetic, electrical and induced polarization, electromagnetic, gamma-ray spectrometry, reflection seismology, borehole, and airborne.

Industry experts will discuss the importance of airborne geophysical methods in exploration, and how borehole EM is used in the search and delineation of conductive ore.

The final day will feature a presentation by the Ontario Geological Survey on the role that public domain data can have in the mineral exploration process. A regional interpretation of public domain data will also be undertaken.

The course does not rely heavily in mathematics, but attempts to impart an understanding of the basic scientific principles. There is a strong emphasis on case studies and laboratory exercises.

#### **Prerequisites**

Advanced undergraduate-level courses in Geology.

#### **Course Format**

Lectures, laboratory practicals, and problem sets.

#### **Course Credit**

3 credits, applicable toward thesis-based or coursework-based MSc and PhD programs; also applicable toward continuing education and continuing professional development requirements for Professional Registration.

A participation certificate will be issued on request with hours listed.

#### **Grading**

Laboratory practicals and problem sets 100%.

#### **Course Notes**

Colour digital images of all presentations will be provided in Adobe pdf format. Notes remain the intellectual property of the presenter and may contain unpublished and/or confidential and copyrighted information, not for reproduction.

## Course Costs for Industry Participants (CDN)

#### On campus:

2,750 + HST = 3,107.50 (CDN) for the full course *or* daily rate 300 + HST = 339.

#### Remote:

\$1,200 + HST = \$1,356 for the full course, *or* daily rate \$120 + HST = \$135.60.

For details and to complete the online registration form, visit: hes.laurentian.ca/modular-courses#5956.

## Course Costs for Enrolled University Students

Laurentian students are to follow standard registration procedure. Graduate students enrolled in other Ontario universities will register through the Ontario Visiting Graduate Student Program and pay fees directly to their university.

Participants are responsible for their own travel, lodging, and meals.

hes.laurentian.ca/modular-courses

#### **Course Coordinator**

Dr. Richard Smith, *Harquail School of Earth Sciences/MERC* rssmith@laurentian.ca

### Logistics

#### **Timing**

Sessions begin at 9 a.m. sharp. Please arrive early.

#### Location

Executive Learning Centre (ELC) Room FA-386, Fraser Building

#### **Parking**

Metered lots at the cost of \$8 per day

#### Coffee

Tim Hortons and Starbucks outlets located on campus.

Breaks scheduled from 10:30 to 11 a.m. and from 3 to 3:30 p.m.

#### Lunches

At students' discretion. Dining Hall open Monday to Friday; Tim Hortons also open weekends. For campus food locations and hours, visit Chartwells' website at: dineoncampus.ca/laurentian

#### What to Bring

Bring a pen and paper for notetaking.

Windows-based laptops are recommended for many of the lab exercises and for Windows-based program downloads.

#### **Travel and Accommodations**

Travel and accommodations are at the students' discretion.

Nearest accommodations to campus include:

- Travelway Inn and Travelodge, both located on Paris Street
- Holiday Inn on Regent Street

All enrolled students are subject to the Laurentian's Academic Integrity Policy.

Please reference the following website:

laurentian.ca/policies-accountability/policies.

#### Registration

Ms. Roxane Mehes, Harquail School of Earth Sciences, Laurentian University 935 Ramsey Lake Road, Sudbury, ON P3E 2C6 Canada

Tel: +1 705-673-6575 • Fax: +1 705-675-4898 • E-mail: <u>rmehes@laurentian.ca</u>

Further information may be found at **hes.laurentian.ca**.
